The **CEV Queen & King of the Court European Finals** is a newly introduced initiative run together by the CEV and Sportworx, in line with the recommendations of the CEV Beach Volleyball Think Tank to embrace new and contemporary formats in the CEV Beach Volleyball events portfolio and provide additional competition opportunities to European athletes and National Federations.

The game has substantial differences with the regular 2 vs 2 Beach Volleyball, as multiple teams are active simultaneously playing under time rules in an elimination race.

COVID - 19 Statement

The overall situation regarding Covid-19 in the Netherlands has improved significantly with the local authorities and lawmakers having lifted many of the preventative measures adopted to curb the spread of the virus, thus currently no control of vaccination or recovery status is planned for the **CEV Queen & King of the Court European Finals**.

For the currently valid entry regulations to the Netherlands, please refer to the latest info available on the website of the Government of the Netherlands: <https://www.government.nl/topics/coronavirus-covid-19/visiting-the-netherlands-from-abroad/checklist-entry>

Hygiene protocols

Following a recommendation of the CEV Medical Commission, in countries where there are no restrictions in place to curb the spread of the novel coronavirus, the organisers and all relevant stakeholders do not have to follow the provisions of the latest CEV Hygiene Guidelines – Beach Volleyball Specifications.

Nevertheless, to ensure a safe event for all persons involved, the following recommendations and guidelines to every accredited participant of the event are in place:

- Hygiene measures should be always observed. These include frequent and thorough hand-washing and coughing and sneezing into the crook of the arm or into a paper handkerchief.
- When a minimum distance of 1.50m cannot be maintained in closed areas, the use of a medical mouth mask is recommended. The same principle is also recommended for local and international transportation.
- Persons with a confirmed SARS-CoV-2 infection will not be allowed access to the venue, will be required to go into isolation and will take over all medical & accommodation expenses while in the Netherlands.

<p>COMPETITION FORMAT</p>	<p>Queen & King of the Court is a beach volleyball variant where the court is divided into a winner's side and a challenger side. Points can only be scored on the winner's side under the following rules:</p> <p><u>Teams</u></p> <ul style="list-style-type: none">• Each team consists of two players.• Each match will be played by multiple teams with a minimum of three (3) teams.• Starting from the Quarter Finals, all points scored in all rounds by teams in the previous phase (excluding lucky loser rounds) are used to create the points ranking. This ranking is then used for pool composition.• Before the start of the game, there will be a draw to decide which team has the benefit of starting on the winner's side (a.k.a Queen's/King's side). This draw will take place right before the start of the match. Every team picks a playing card. The team that picks the 'Queen' or 'King' will start on the Queen's/King's side and the service order is established by the order of the playing cards (from highest to lowest) picked by each team.• For play-off rounds, there will be no draw. Players will be starting the game according to their position in points ranking.• When a player gets injured during the match, they can be treated next to the court, but the game will continue. <p><u>Game</u></p> <ul style="list-style-type: none">• The game will be played on a regular beach volleyball court. On each side of the court, there is a set of gold and black boundary lines. The gold lines refer to the King's side of the court and the black lines refer to the challenger's side of the court.• The Queen's/King's side is the only side of the court where a team can score points.• The challenger's side is the side where teams can challenge the 'Queens' or 'Kings'. When teams win the point on this side, they earn a spot on the Queen's/King's side where they replace the team that was on that side during the previous rally and the team that was replaced goes back to serve, while respecting the service order.• Each rally starts with a serve from a team on the challenger's side.• The team that is serving can decide which player of the team is serving. There is no specific order and limitation on how many times one player can serve.• If the team on the Queen's/King's side wins the rally, they earn one (1) point and they will remain on the Queen's/King's side.• If the team on the challenger's side wins the rally, they earn the spot on the Queen's/King's side.
-------------------------------	--

- If the team on the Queen's/King's side loses the rally, they will leave the Queens'/King's side and go back to the challenger's side. At the challenger's side they wait their turn to play.
- If the team on the challenger's side loses the rally, they will leave the court and stay at the challenger's side. At the challenger's side they wait their turn to serve again.
- There will be a maximum of eight (8) seconds in between the end of a rally and the beginning of a new rally.
- When a rally starts, the game will be played according to the regular beach volleyball rules.
- Teams cannot take a time-out during a round.

Points

- If a team on the challenger's side makes a serving mistake, there will be no points awarded to the team on the Queens's/King's side. Exception is every three (3) service mistakes in a row are one (1) point. When three (3) service errors are reached or a new team enters the Queens's/King's side, the service mistakes will go to zero (0) and the count starts again.
- In the last (1) minute of a round, every service mistake is one (1) point awarded to the team on the Queens's/King's side.
- After each round that is played, the team with the least number of points scored in that round will be eliminated.
- When there are two teams with the same lowest number of points at the end of the round, the team with the longest stay on the Queens's/King's side will advance to the next round. If the longest stay is equal as well, the team that had the longest stay first will advance to the next round.
- The following round in one (1) match will start according to the result of the previous round. The team with the most points will start the next round on the Queen's/King's side, the team with the second highest number of points will be the first challenging team, the team with the third highest number of points will be the second team to serve from the challenger's side, and so on.

Golden Ball reward

- When in a phase the top 3 of each group advances to the next round the teams can earn a golden ball in their match. They can use this golden ball in the next phase only. For example: During the group stage, teams can earn a 'golden ball' to use in the semi-final.
- This 'golden ball' will be earned by the winner of round number three (3). This means when there are three (3) teams remaining, they are battling for a prize to use further in the tournament.
- The 'golden ball' can be used as a wash. This means when a team is on the Queen's/King's side and loses the rally, they can use the 'golden ball' to re-play the rally. This also means the rally will be played against the

	<p>same team on the challenger's side. The 'golden ball' can only be used once.</p> <ul style="list-style-type: none"> The 'golden ball' can only be earned in the Group Stage or the Quarter Finals <p><u>Time per game</u></p> <ul style="list-style-type: none"> One match with 5 teams has 3 rounds Each round will be played in fifteen (15) minutes. After 10 minutes in each round there will be a time-out of 1 minute. The time out starts, and the clock pauses when the rally that started after 10 minutes has ended. The final round will be played until fifteen (15) points or in fifteen (15) minutes. There will be a buzzer (sound) at the end of each round. When the buzzer goes it means the round is over but the rally currently in play still counts. <p><u>Qualification format</u></p> <ul style="list-style-type: none"> For Phase One, 15 teams are divided into 3 pools following the same pattern and rules as for the main draw pools. Winners of the first phase pools advance to the main draw. Teams who finished on 5th places play a playoff of 15 minutes for 1 spot in the second phase. The 2 pools in the Phase Two are composed as per points ranking from first phase. Winners of each pool are advancing to main draw.
